DETAILED ACTION

1. This action is responsive to communication filed 8/30/05.

Allowable Subject Matter

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance for claim 1.

A monitoring system comprising multiple cameras with a selector selecting compression means is well known in the art. The distinguishing feature of the instant application is selecting a cut down mode (compressor), which specifies a way of reducing data amount of each of the camera images for use in image synthesis, for the image cut down means in accordance with a geometric correspondence between the synthesized image and the each of the camera images. The specification describes a geometric correspondence as mapping table. Claims 2-7 depend on claim 1. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
